

*“The ATERAS Solution gave us a cost-effective means to move from a legacy mainframe system to a modern infrastructure without loss in core business functionality.”*

*— Howard Marsh, CIO Anchorage Water & Wastewater Utility*

## Objective

- Convert VSAM COBOL application
- Eliminate mainframe and related tools
- Limited impact on the end-user environment
- Retain 100% of the Business Rules

## Solution

- VSAM to Oracle
- Online CICS COBOL to C#
- Batch COBOL to Micro Focus
- Converted 28 VSAM files
- Converted 53 BMS Maps
- Converted 56 COBOL CICS programs
- Converted 34 COBOL programs for batch processing
  
- Conversion complete
- No more mainframe processing
